

Update - October 2018

Some people can apply for Settled Status now:

- From 15 November 2018, staff in the higher education sector across the UK will be able to apply for Settled Status. You need to work for an organisation on the [Tier 4 Register of Licensed Sponsors](#)
- From 29 November 2018, staff in the health and social care sectors across the UK will be able to apply for Settled Status. You can find the organisations listed on pages 4-6 of the [Immigration Rules](#)

You do not need to do anything for now. EU citizens eligible to apply in November will receive further information from their employer.

Only staff can apply at this stage and not their family members.
